

EZI-Dock™ with Orbetron's Disc & Screw Feeders

Orbetron introduces the intergration of EZI-Dock transfer system to the Orbetron's Disc Family, Single Screw, and Twin Screw Lab Feeders. Two options are available for purchase, and are designed for small amounts of material.

The EZI-Dock bag transfer system is easy to use, and uses an adapter to fit the 4" valve to the all sizes of Disc and Auger Feeders. Both products, EZI-Dock's™ bags and bottles can be reused or disposed thereafter.

Ezi-Flow™ CSV

Ezi-Flow™ CSV

The cornerstone of the Ezi-Dock™ High Containment solution is the Ezi-Flow™ CSV High Containment Transfer System. Available in campaign-use and single-use formats and 4 and 6-inch full bore connections.

The Ezi-Flow CSV breaks the mould, providing superb levels of containment at a greatly reduced cost.

The Ezi-Flow CSV provides:

- High Containment Performance OEB 5 / $<1\mu\text{g}/\text{m}^3$
- Fast, Full-Bore Discharge
- Liquid Tight, Low Maintenance
- Single-Use Chargebag & Passive Connection
- 4-5 times cheaper than "Old Style" Split Butterfly Valve alternatives
- Fast, Trouble-Free Supply

EZI-Dock™ Containment Bottles & Reducers

Description

Multiple-industry users who prefer to use traditional bottles and rigid process packaging will be impressed by the improvements incorporated into the New Ezi-Dock™ Pharma Process Bottle Range, which makes it the cheapest and most efficient available.

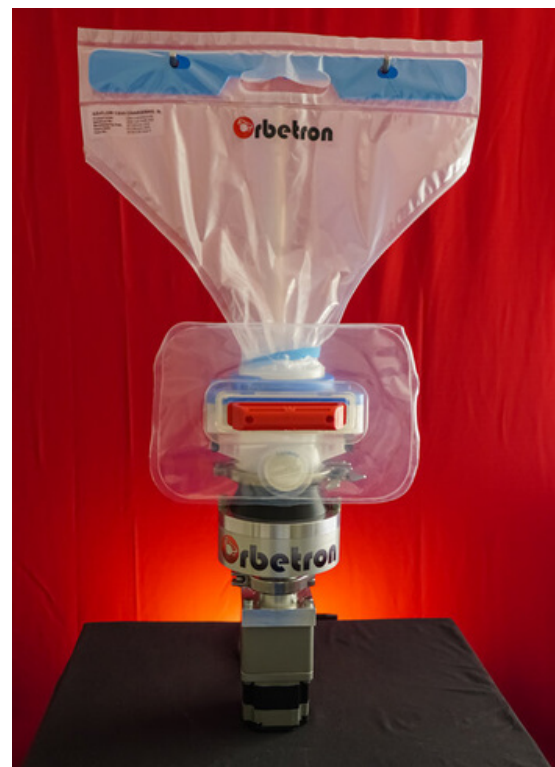

Ezi-Dock™ Pharma Process Bottles are manufactured from USP Class VI approved HDPE (with an FDA-approved anti-static additive) and our design has been optimized for transport, the unique SQUARE design producing a valuable space saving of between 40-45%.

Ezi-Dock™ Pharma Process Bottles feature a standard 6-inch Tri-Clamp neck design that will then adapt (using an injection molded adapter) to pharma-industry standard sanitary 4-inch Tri-Clamps (BS4825-3).

- 15 Litre – (30x30x29cm) – 84 Bottles per Pallet
- 25 Litre – (30x30x40cm) – 60 Bottles per Pallet
- 30 Litre – (30x30x47cm) – 48 Bottles per Pallet
- 40 Litre – (30x30x58cm) – 36 Bottles per Pallet

Ezi-Dock's Single-Use Pharma Chargebags provide the ultimate in convenience and cost-effectiveness and their double wall construction reduces the risk of pinholing and adds useful strength when dealing with heavy passive connectors.

Manufactured from a + Compliant LDPE with a permanent nonmigrating Anti-Static additive, and available in 2, 5, 10, 15, 25, and 40-liter sizes with a choice of 2, 4, or 6-inch tri-clamp connectors. Non-standard sizes are available on request.
